

**First-Time Hawaiian Freshmen  
at the University of Hawai'i at Mānoa, Fall 2007  
Office of the Vice Chancellor for Students  
June 2008**

This report presents the findings of a web survey administered to Hawaiian/Part-Hawaiian first time, full-time, classified freshmen who entered the University of Hawai'i at Mānoa during the fall 2007 semester. It is hoped that the results will provide a better understanding of the characteristics, plans, and attitudes of entering Hawaiian/Part-Hawaiian students and will lead to enhancing their educational experiences at UH-Mānoa.

Of 1,761 entering freshmen, 428 responded to the Cooperative Institutional Research Program (CIRP) survey. Of the 428, 48 or 11 percent were Hawaiian/Part-Hawaiian respondents. Respondents were proportionate to the overall population of incoming Hawaiian/Part-Hawaiian students (12 percent).

This report covers the characteristics of respondents, their high school background, their engagement in activities, and the time spent in a range of activities. On the college level it assesses their college choice, financial situation, parental involvement, college objectives, career and college plans, self-assessment of their abilities, anticipated involvement in activities, and attitudes on societal issues.

Part I highlights the survey coverage of Hawaiian/Part-Hawaiian freshmen and total UH-Mānoa freshmen respondents, but does not cover every survey item. Part II provides the statistical results for each survey item. It also includes the results from four comparative groups: 1) Hawaiian/Part-Hawaiian, 2) total UH-Mānoa freshmen, 3) public universities – low selectivity (based on SAT scores), and 4) all public universities participating in the survey.
